

Romanian Language for Microsoft Dynamics® 365 Business Central

This document contains the steps the user has to perform in order to set the Romanian language for Microsoft Dynamics 365 Business Central.

How to install the Romanian language

The Romanian language app should be installed like any other app. This task can be performed by the IT department or by the Partner.

To verify the Romanian language pack app installation, from Business Central, open the Extension Management and look for “Romanian Language” extension.

How to use the Romanian language

Once the Romanian language app is installed, from Business Central, My Settings, user may select for Language, Romanian (Romania).

Leave the settings by selecting OK in order to keep the changes and to have Business central in Romanian language.

(By changing the Region to Romanian, date and numbers will be formatted to Romanian.)

The screenshot shows the Business Central dashboard in Romanian. At the top, there is a navigation bar with 'Localizare BC16 - Test' and various menu items like 'Finanțe', 'Admin. numerar', 'Vânzări', 'Cumpărare', 'Parametrizare & Extensii', and 'Intelligent Cloud Insights'. Below the navigation bar, there are several sections:

- HEADLINE:** A large heading 'Doriți să aflați mai multe despre Business Central?' (Do you want to know more about Business Central?).
